Audits for Nonprofit Organizations

Embracing Your Vision

THE FINANCIAL INTEGRITY OF YOUR ORGANIZATION IS OF THE UTMOST IMPORTANCE.

Your annual audit is one of the most critical processes your organization will undertake in testing the accuracy and completeness of information presented in your financial statements.

A high quality audit can:

- *Enhance the growth of your organization through collected and organized information.*
- *Help you gain public confidence.*
- *Provide an important checkpoint to help your organization safeguard against errors and to deter fraud.*

Providing high-quality independent audits to several hundreds of nonprofit clients each year is our forte..

When you select RAFFA to perform and manage your audit, you get seasoned professionals who have years of financial and nonprofit experience, as well as the expertise to help guide you through your audit, smoothly and efficiently.

OUR PHILOSOPHY

Through audit, we strive to understand your vision, business operations, financial performance, accounting systems and internal controls. While this process ultimately leads to an annual audit opinion on your financial statements, our goal is to provide value beyond this assurance.

OUR PROMISE

We take responsibility to ensure that you are made aware of any developments affecting your organization. Our professionals communicate openly and work proactively with you to address important issues. Our goal is to build a successful and collaborative relationship between our professionals and your staff and board.

A TEAM THAT UNDERSTANDS YOUR NEEDS

Understanding your audit process can be difficult. Your RAFFA Audit Team will thoroughly communicate your audit results to you, translating all information gathered to key leadership members of your organization. We will empower you with the detailed information and tools you need to ensure the financial integrity of your organization.

AUDIT PROFESSIONALS WITH EXPERIENCE IN THE NONPROFIT SECTOR

In addition to nonprofit experience, your auditor should have the technical expertise, communication skills, and flexibility to conduct your audit in an efficient and effective manner. RAFFA has worked with thousands of nonprofit clients, and our firm is well known and respected in the sector we serve. That's because *nonprofits are our business* — not just a part of it.
